

FIWARE for the Next generation Internet Services for the WATER sector

Developing cooperation partnerships on #digitalwater for the Danube countries

Ciprian NANU
Business Development Group

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 821036.

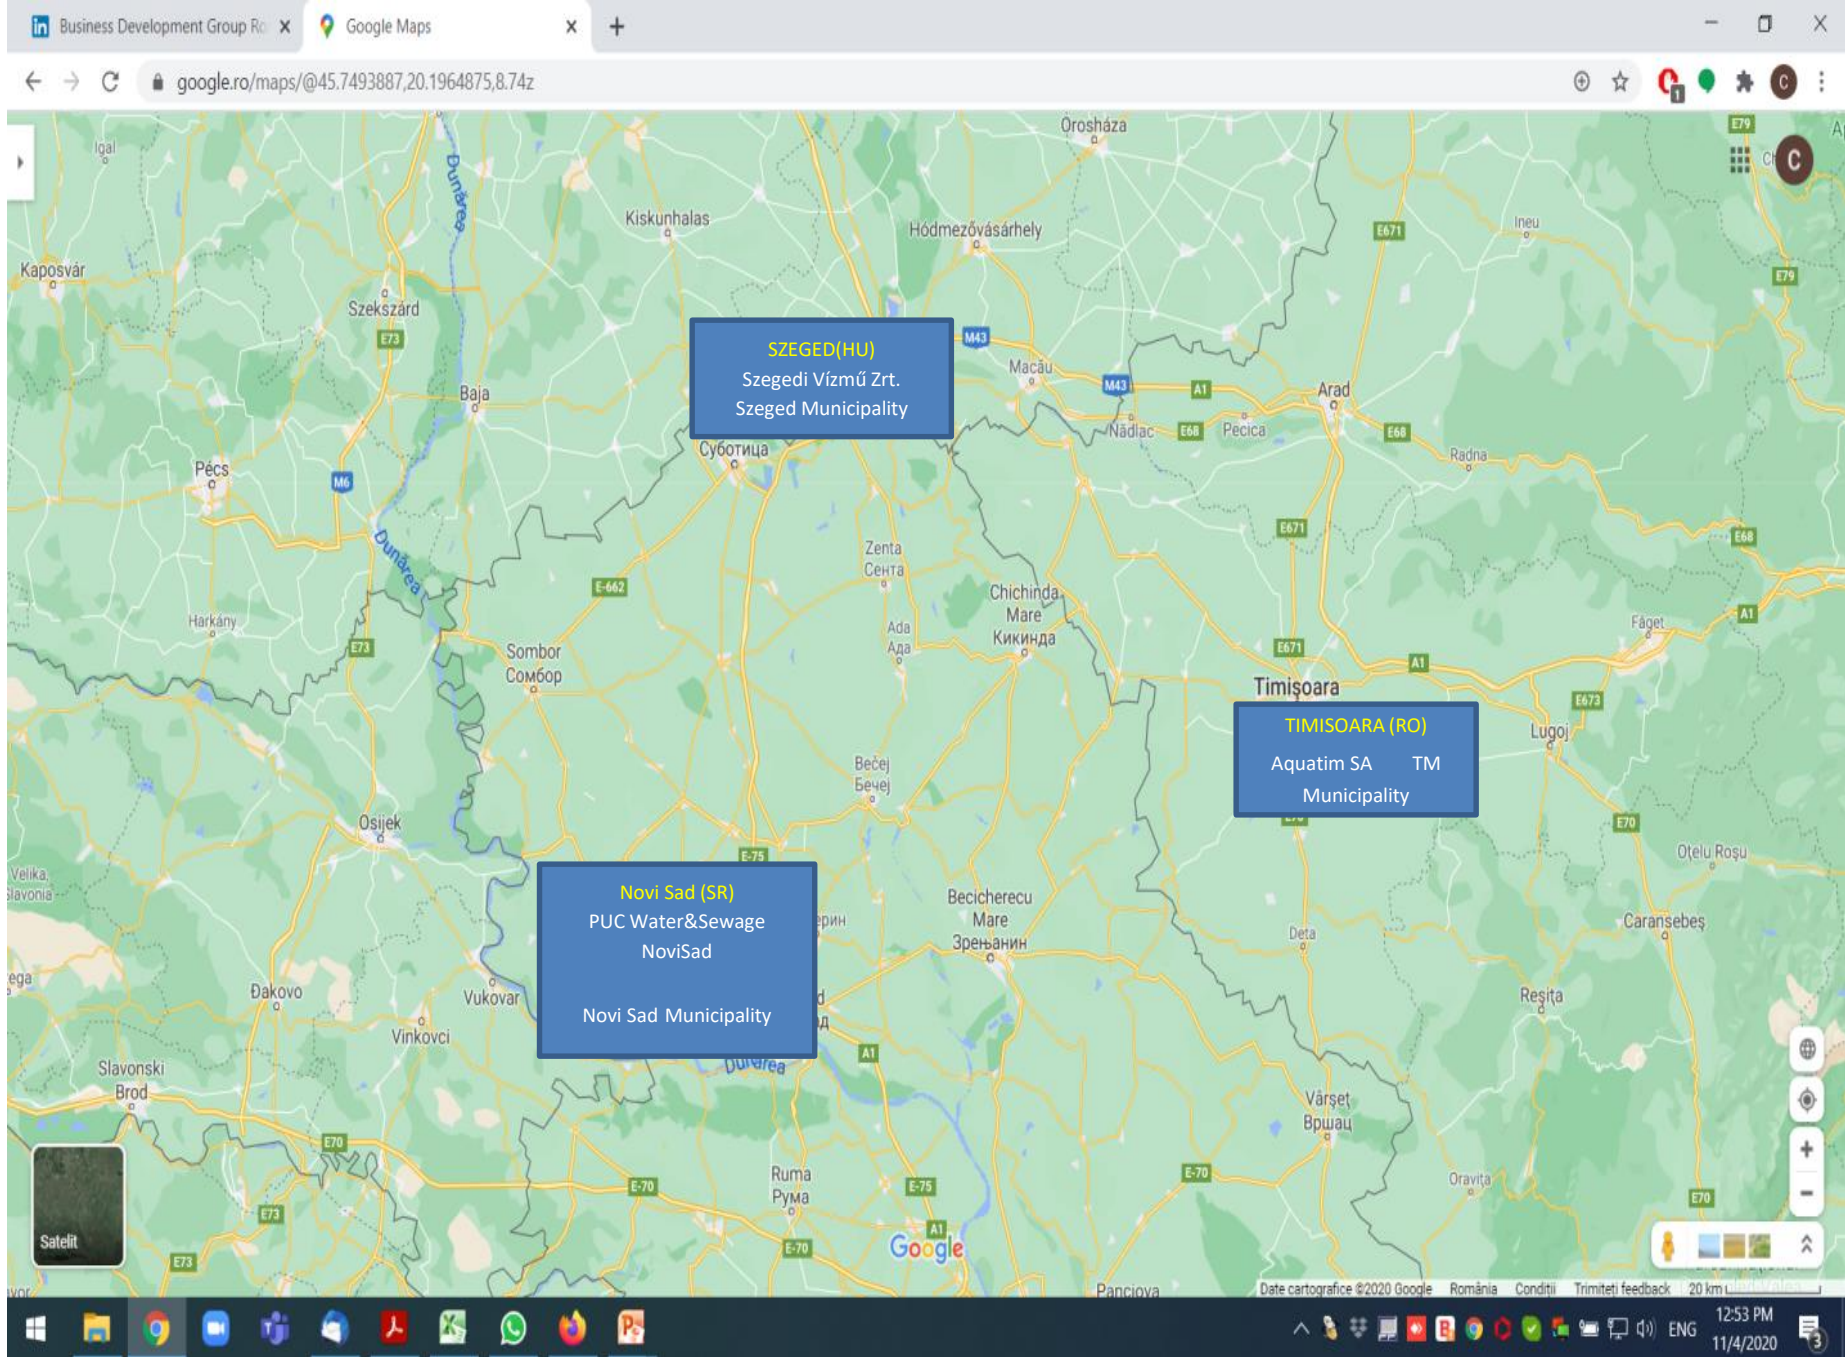

Current situation

- Danube Water utilities are public owned (few exceptions, Bucharest, Szeged, etc.)
- Their own IT dept., SCADA, GIS.
- Limited IT officers and competences
- Limited wish to cooperate/Lack digitization

First steps

- Select water utilities and municipalities available and *willing to cooperate*
- Make them aware about social and political engagement
- Guide them to the “end client” satisfaction
- Assist them to recruit and *engage citizen*
- Framework partnerships water utilities-
municipalities-R&D-NGOs-**CITIZENS**
