

SmARt water managemet with IIntegrated Deciission support systems (SAID)

Discussion

organised in the framework of Euro-INBO 2016

Eric MINO

19 October 2016 – Lourdes (France)

Topics for discussion

- **Optimising hydro-power, water quality and flood risk with smart water infrastructure**
- **Robust real time monitoring to anticipate crisis management**
- **Big data for predictive river basin simulation**
- **Capturing knowledge in DSS for training new generation of water managers**
- **Aggregated information for involving local stakeholders in decision making**

Thank you for your attention
