Твининг Проект BG 07 IB EN 01

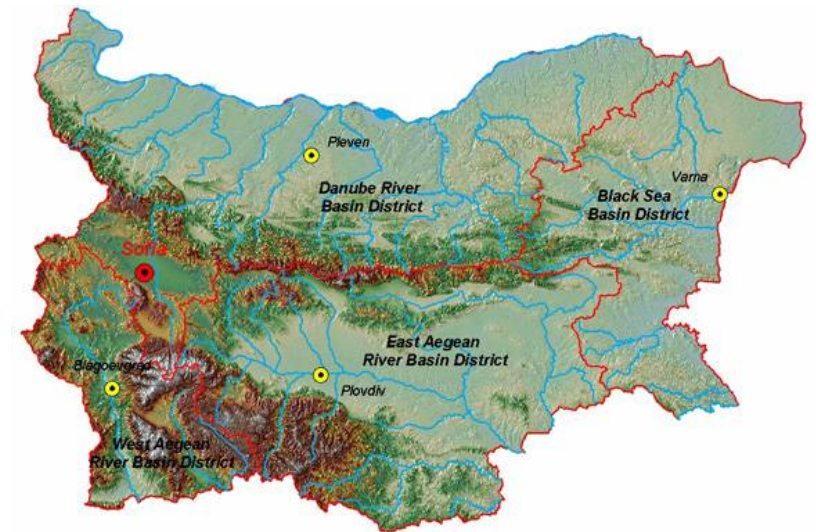

Укрепване на административния капацитет на органите за управлението на водите в България за прилагане на икономическите инструменти за управлението на водите съгласно РДВ 2000/60/ЕС

Content of the presentation

1. The objectives of the Twinning
2. Some outputs of the Twinning
3. On-going issues for Bulgaria

1. Objectives of the Twinning

Since March 2009, the twinning project is seeking two objectives :

- support the Ministry of Environment and waters and the four River basin Directorates in the implementation of the Water Framework Directive
- strengthen the use of economic instruments and approaches in the Water Management

1. Objectives of the Twinning

Component 0 - Project management and regular meetings

Component 1 - Analysis and assessment of the Administrative Capacity

Component 2 – Development of programme of measures

Component 3 - Capacity building, supporting tools and methods for developing a cost-effective program of measures

Component 4 – Cost Recovery

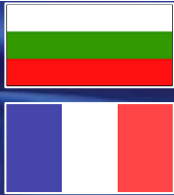

Component 5 - Guidelines and/or instructions on economic instruments, methods and tools supporting the preparation of River Basin Management Plan

Component 6 : Workshops and seminars

Component 7 - Development of specifications of Water Information System

2. Some outputs of the project

Like in most of the Member States, the economic analysis has played a limited role in the development of PoM & RBMP.

The Twinning has tried to strengthen this use through :

- development of two guidance documents (I) Economic tools and RBMP (ii) Cost-recovery
- development of Water Price model to assess the impact of WWTP and sewage network investments on water price
- the adaptation of ECOWHAT? learning session

Coopération Européenne France - Bulgarie pour la Directive Cadre sur l'Eau

ECOWHAT? is role playing game like which introduce the main principles of Integrated Resources Water Management and the use of economic tools (cost assessment, Cost Benefit Analysis)
This game has been adapted in Bulgarian : EKO KAKBO ?

Туининг Проект BG 07 IB EN 01

Укрепване на административния капацитет на органите за управлението на водите в България за прилагане на икономическите инструменти за управлението на водите съгласно РДВ 2000/60/ЕС

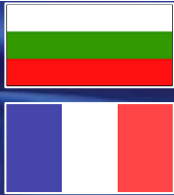

3. On-going issues for Bulgarian water Authorities

Implementation of the Programmes of Measures

- Development of partnership between the Ministries, Municipalities, stakeholders
- Ensure the financing of the PoM (which role for the water fees in this financing)
- Provide enough information (technical, on financing issues) to stakeholders and in particular Municipalities

Coopération Européenne France - Bulgarie pour la Directive Cadre sur l'Eau

НАЦИОНАЛНО НИВО

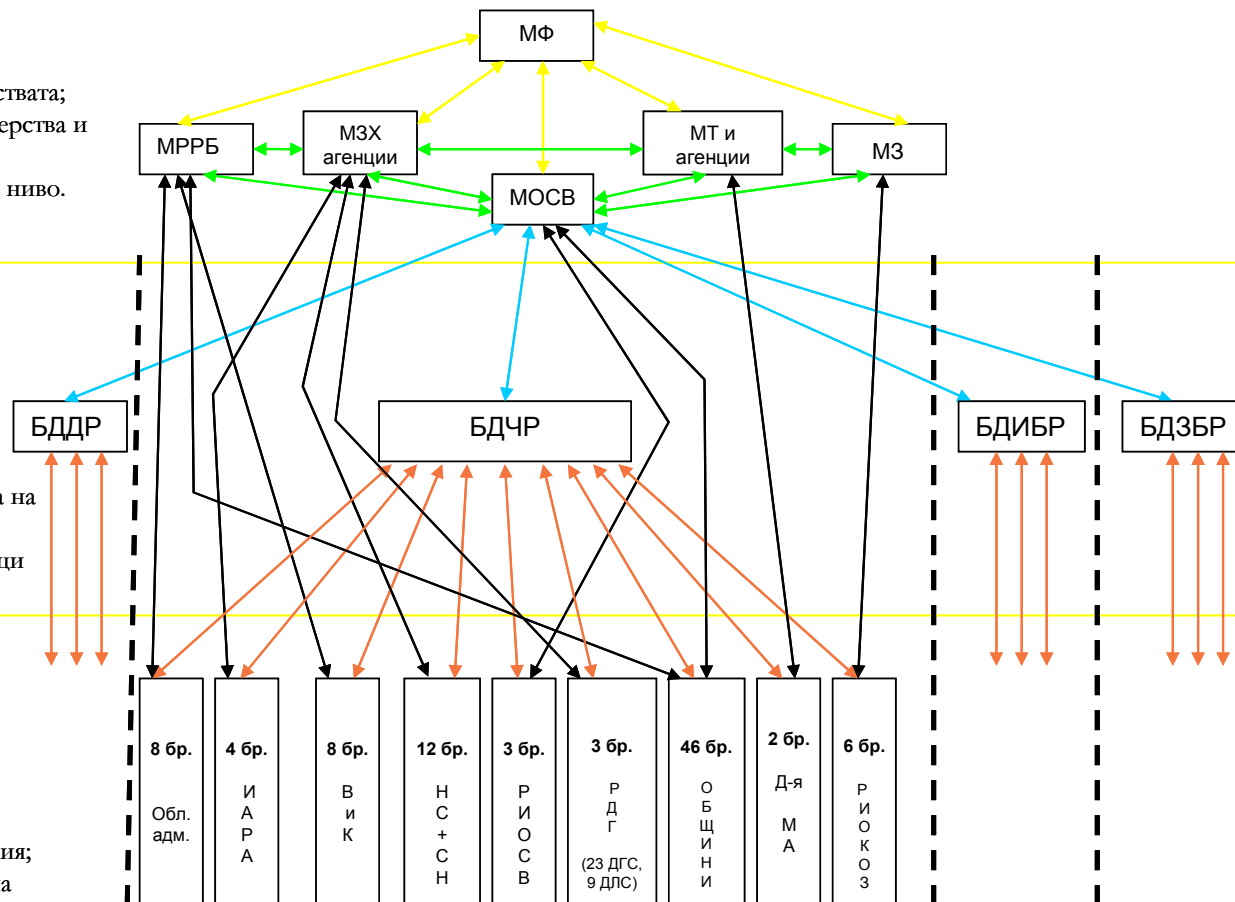

- Финансиране;
- Отчет и управление на средствата;
- Координация между министерства и агенции;
- Обобщаване на национално ниво.

БАСЕЙНОВО НИВО

- Контрол за изпълнението;
- Обобщаване на басейново ниво;
- Анализ и оценка на степента на изпълнение;
- Предприемане на коригиращи действия.

РЕГИОНАЛНО НИВО

- Изпълнение на мерките;
- Усвояване на средства по програми;
- Предоставяне на информация;
- Контрол за изпълнението на регионално ниво.

3. On-going issues for Bulgarian water Authorities

Implementation of the Programmes of Measures

- Follow-up of the implementation by the MoEW and the River Basin Directorates
- Collect information through the follow-up to ensure a good revision of the RBMP and PoM in 2012

3. On-going issues for Bulgarian water Authorities

- **Development of more integrated use of economic analysis (e.g. for justifying derogations, for developing cost-effectiveness and cost-benefit approach,.....)**
- **finalize the modification of the water fees system in order to increase its role in the financing of the PoM but also its incentivness regarding ecological objective**

Coopération Européenne France - Bulgarie pour la Directive Cadre sur l'Eau

Благодаря за вниманието...
