

6<sup>TH</sup> W O R L D W A T E R F O R U M

# 6<sup>th</sup> World Water Forum

12-17 March 2012, Marseille, France ...

MARSEILLE, FRANCE '12

TIME FOR SOLUTIONS

# *Solutions for water*

## *to address the challenges our world is facing*

- ➔ The Forum will show how the water community, as well as all actors committed to the cause of water, contributes to tackle the key challenges our world is facing
- ➔ The Forum encourages strong partnership working for the implementation and the scaling up of promising solutions

**Be part of the solutions !**

**The International Forum Committee invites you to contribute  
the world Platform of Solutions**

**[www.solutionsforwater.org](http://www.solutionsforwater.org)**

# Contribute with a Solution for Water

[www.solutionsforwater.org](http://www.solutionsforwater.org)

Designed by the International Forum Committee of the 6<sup>th</sup> World Water Forum, this platform is:

- an open-source, English-language, digital tool
- dedicated to collect, to share and to follow solutions and commitments for water
- from the international water community, *but not only*,
- driven by our global priorities and our thematic or regional targets,
- following a WISE methodology : Wide Involvement Stakeholders Exchanges.

• It is a working space, a knowledge-sharing basis, a network as well as an international communication and exchange device.

- This platform is also available from [www.worldwaterforum6.org](http://www.worldwaterforum6.org)

## SOLUTIONS FOR WATER

### Welcome

The [6th World Water Forum](#) aims to identify practical solutions and generate commitments to implement them through the involvement of a large array of stakeholders within and outside the global water community. Contributions from all are instrumental in scaling up action and strengthening water's role in the well-being of humanity, green growth and our living Blue Planet.

To enable a widespread involvement and to trigger concrete contributions for water, the Forum Secretariat has established a web based "Platform of Solutions" [open to all stakeholders](#). This interactive tool enables everyone to discuss on [priorities](#) to world water issues as well as associated [targets](#) and [solutions](#). It facilitates comments and presents the commitments collected in the run up to the 6th World Water Forum.

#### Yield intensification through integrating WUAs/IMT and IAS

11th August 2011 by [M. K. Roshan](#)

★★★★★ (1 votes, average: 3.00 out of 5)

Creating and empowering water-user associations (WUAs) to help farmers manage water at the on-farm and inter-farm levels, combined with developing an irrigation advisory service (IAS) initiated/funded by the water ministry but integrated/cooperating with the WUAs (and preferably, as done in Uzbekistan, housed in the same WUA unit building). The solution is already being implemented and has demonstrated long-term sustainability and added-value.
