

Rhône-Méditerranée River Basin District

POM : process and implementation

Keys for success

Philippe Dupont
Jean-Louis Simonnot
Christian Lasnier (ill.)

Where are we ?

2005 - 2007

Characteristics of RBD...

2007 - 2008

Draft of RBMP (SDAGE) and POM

04 - 10/2008

Public Consultation

01 - 05/2009

Regional public bodies consultation

11/2009

RBMP and POM : Final version

The POM at the level of 200 sub basins

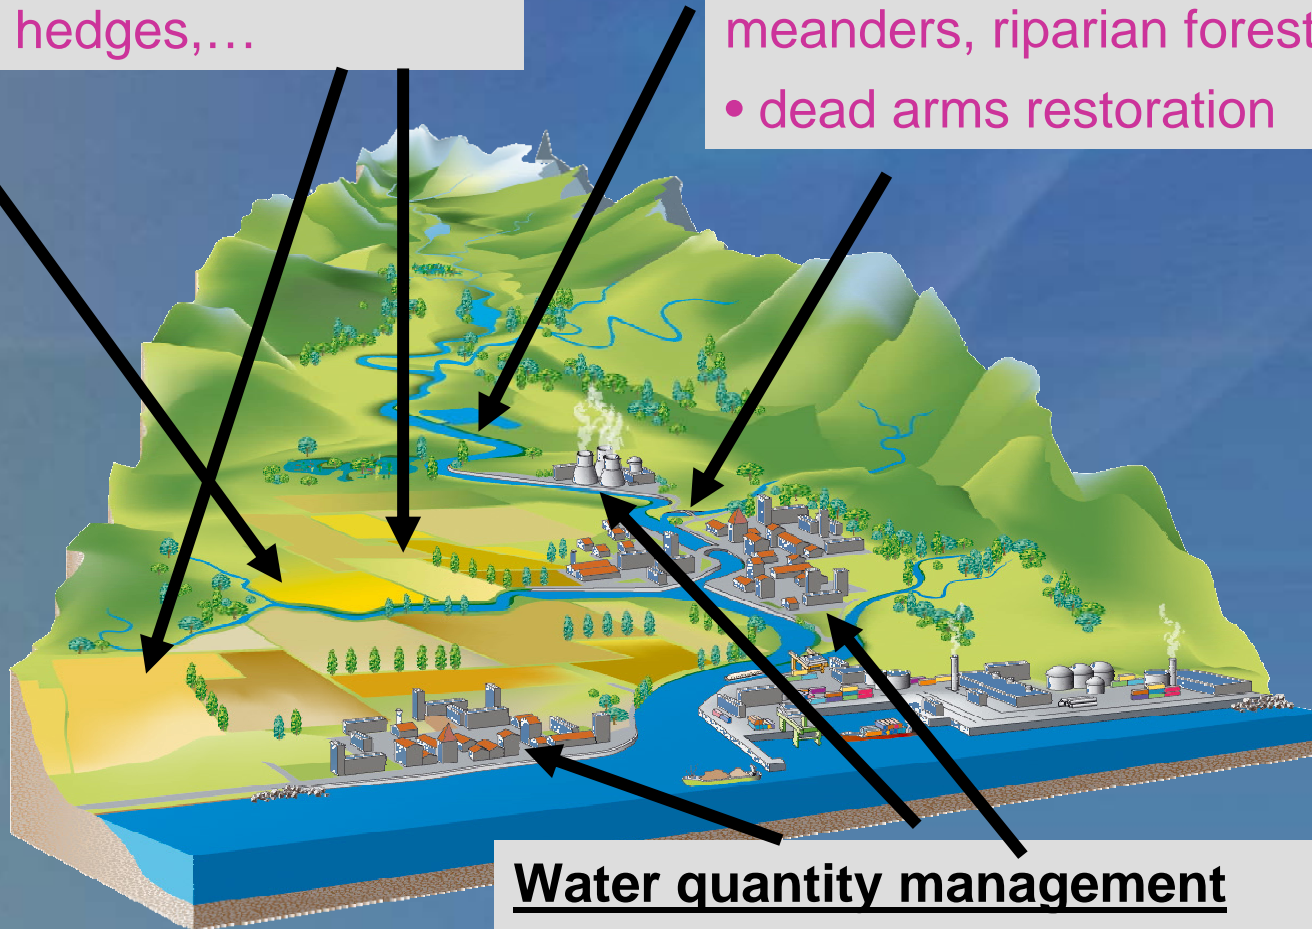

Agriculture

- reduction of non point pollution
- buffer stripes, hedges,...

Artificialisation

- physical restoration : meanders, riparian forest,
- dead arms restoration

*Example
(~ 500 km²) :*

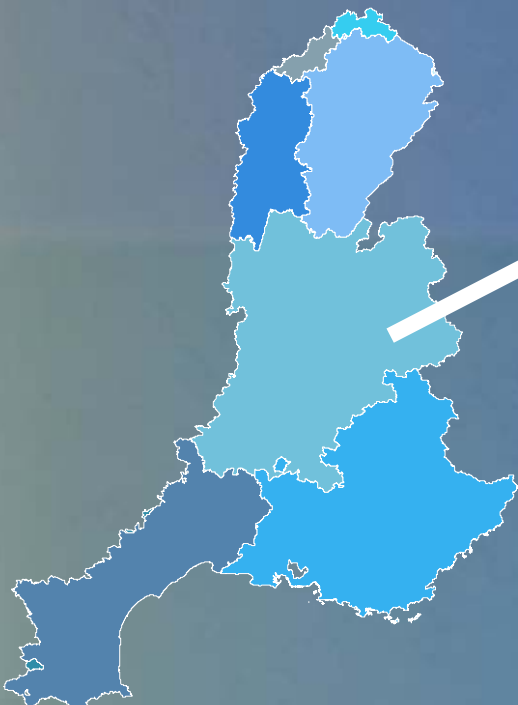

Water quantity management

- reduction of water abstractions

Implementation : different relevant scales

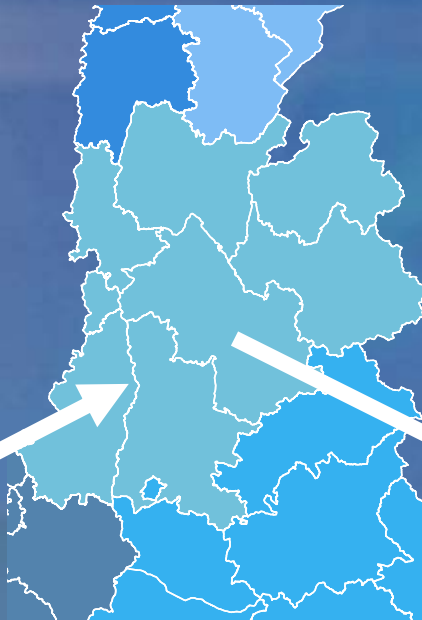

Regions

*State coordination
Land planning*

Departements

*Regulations
Subsidies for local authorities*

Sub basins

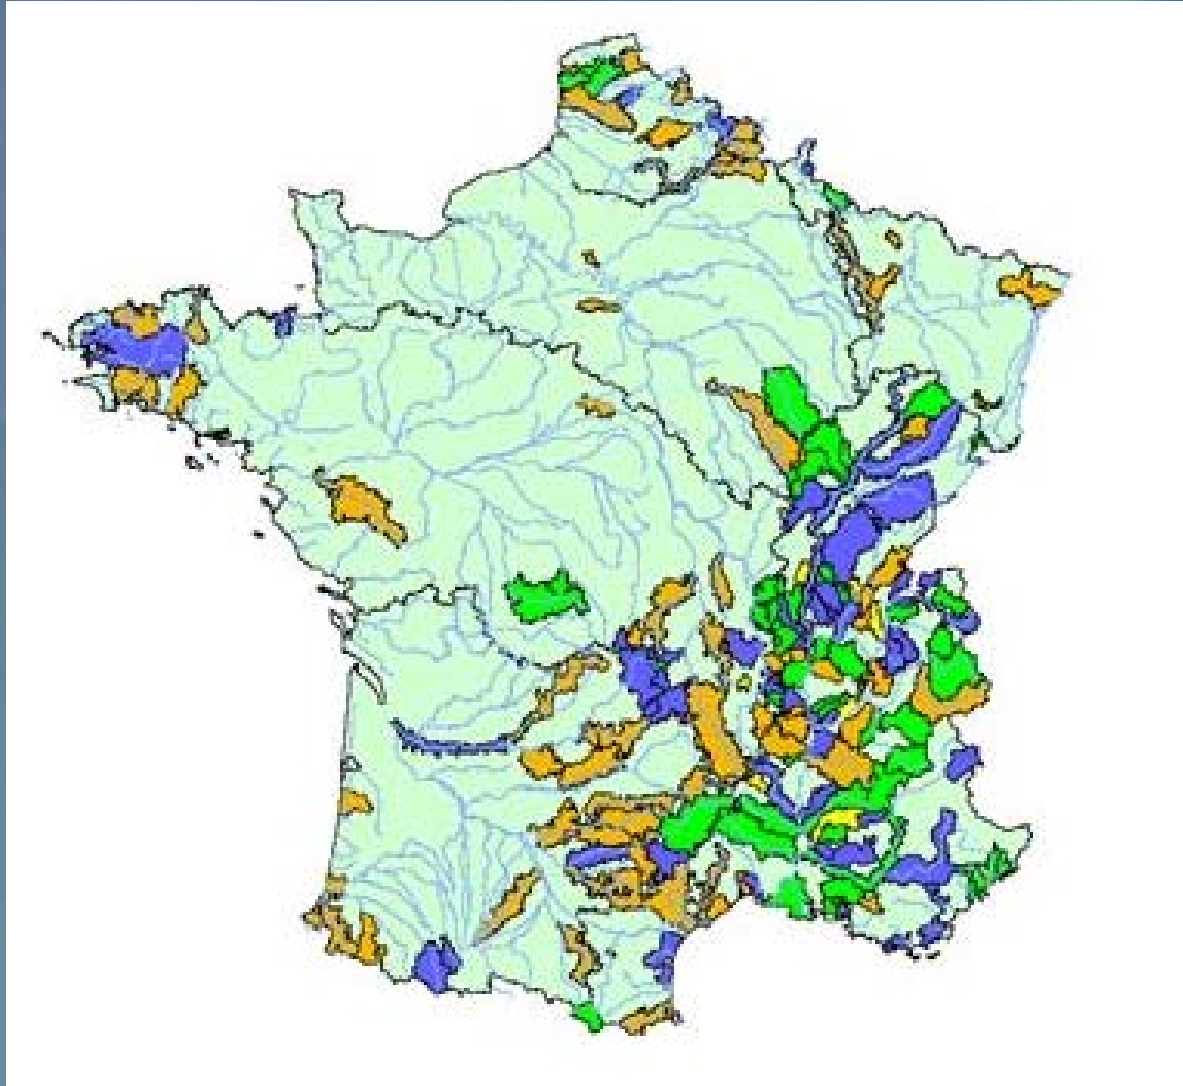

*Local management
Pack of measures*

District : Water Agency = polluter pays principle

Relevant local tools

The river contracts example

First step : regulation

European Directives

National translation

WWTP Directive
Nitrates Directive
Drinkable Water Directive
Bathing water Directive
Hasardous substances Directive
...

Droit français
Décrets, arrêtés, circulaires
Code de l'environnement
Code minier
Code des collectivités terr.
Code pénal
...

Basic Measures

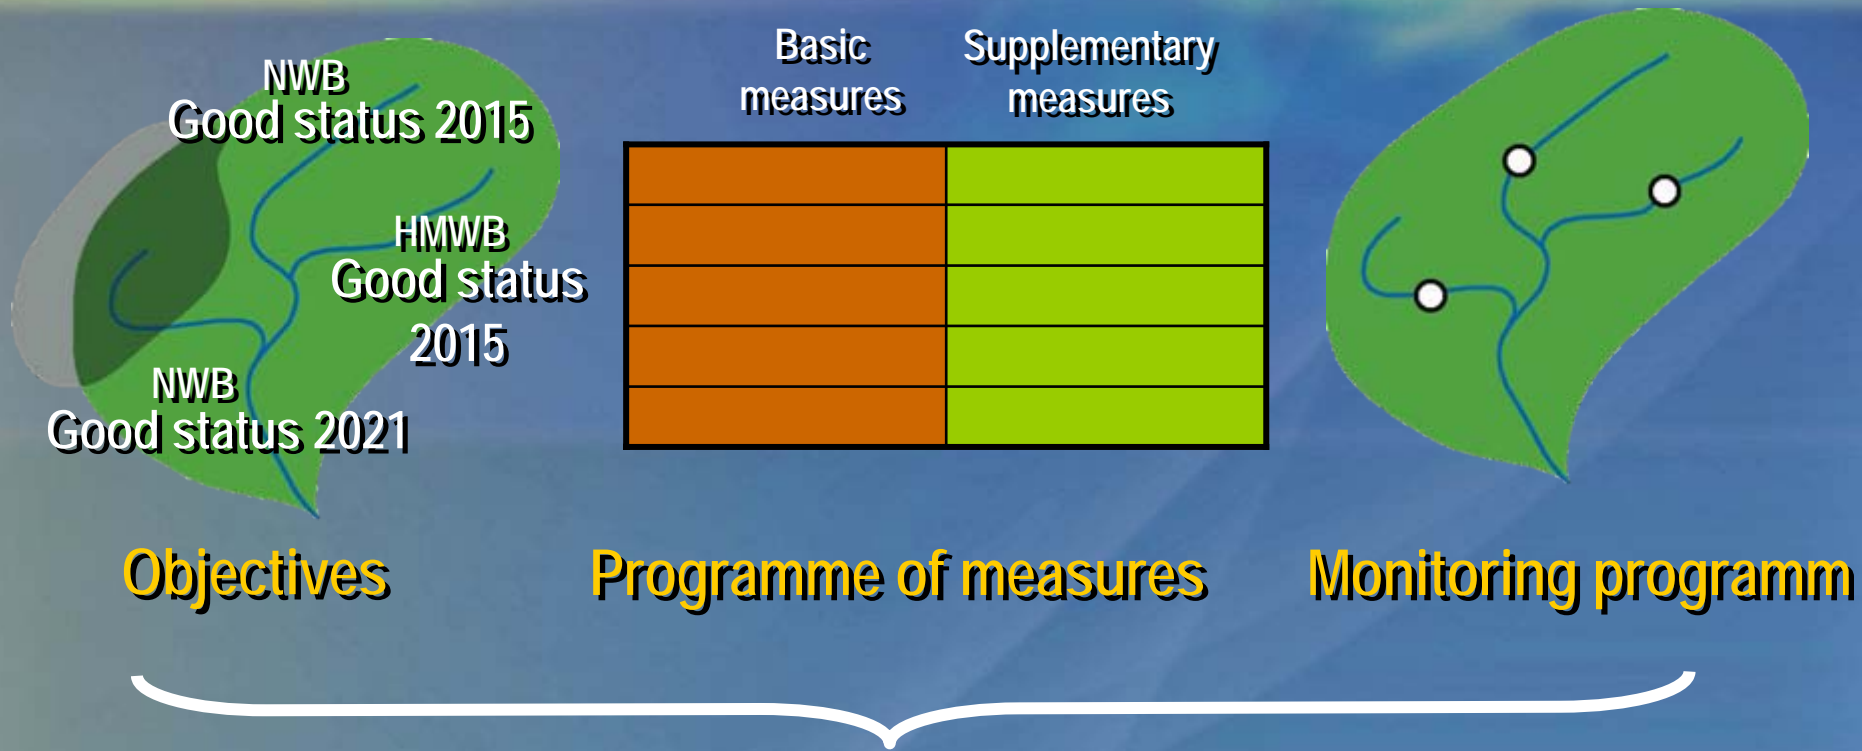

To improve, at the local level,
the cost effectiveness of the POM

For some issues, to be partner of the (r)evolution

A pragmatic implementation

Water policy assessment to develop !

Multumesc!
